

How to Use the SmartSolar Marketplace

SmartSolar is here to assist you on your path to solar – from your first considerations up to project completion. The following steps summarize the SmartSolar Marketplace process:

STEP 1: Enroll In the SmartSolar Marketplace

Start by visiting our enrollment page. You can also email us at smartsolar@ebenergy.org or call (510) 981-7750 to learn more about our program.

STEP 2: Enter Your Address & Locate Your Rooftop

Enter your property's address and use the google maps satellite image to locate your rooftop.

STEP 3: Tell Us About Your Electrical Use

Enter in specific monthly electric bill data, for the most accurate solar assessment results, or input a quick estimate of your monthly electric usage.

STEP 4: Create Your Property Profile

Activate your project on the solar marketplace by finalizing your property details and entering basic contact information.

STEP 5: Receive and Review Contractor Quotes

Contractors will submit their quotes for your solar project through the online marketplace and you can review them side by side on your personal account. SmartSolar is also available to go over these quotes with you

STEP 6: GO SOLAR!

Once you determine your best solar option, sign a contract, notify us of your decision, and begin preparing for your solar installation. Remember that we are available at any point to assist you with additional questions or needs.
