

TOY GO ROUND

1361 SOLANO AVE. ALBANY, CA 94706

Toy Go Round in Albany, CA has recently taken advantage of programs which have allowed them to upgrade their old lighting to energy efficient lighting at no-cost. Toy Go Round manager, Tyler Smith, was pleased to see that despite the lamp's lower wattage, the lumens are higher, making the "front (of the store) is more visible." The holiday season is especially hectic for Toy Go Round and with less sunlight pouring through the windows of the store, it also means the lights are used more often. The new lighting "has had a huge impact" during this time, Tyler notes.

Measures Installed:

9W LED A-Lamp

10W LED BR30
